

PRESS RELEASE:

E&S Tankers conclude first phase of ESG Roadmap together with Fürstenberg Maritime Advisory

E&S Tankers have accelerated their efforts to play a wider role in enabling the green transition across the entire supply chain for its customers. Through strong commitment and a holistic focus, E&S Tankers have engaged with Fürstenberg Maritime Advisory to develop long-term strategic sustainability ambitions to deliver unparalleled ESG value.

E&S Tankers' strategic ESG Roadmap provides actionable access to sustainability ambitions across five main sectors; Ocean Health, Energy & Climate, Circular Economy & Green Finance, and People & Community.

Jan Eghøj, Managing Director at E&S Tankers, remarks:

“Sustainability is fundamental to us. With this roadmap, we are committed to lead ESG performance within our segment, while also enabling our customers to meet their sustainability targets. Through our services, we connect value chains, providing the most effective, safe and reliable means of transport. By focusing on ESG value-add, Fürstenberg Maritime Advisory have helped us understand how we can improve our own footprint while also solving bigger problems for our customers, at scale.”

E&S Tankers will now start the work to develop a program plan to support the targets of the ESG Roadmap.

Conor Fürstenberg Stott, Partner at Fürstenberg Maritime Advisory, concludes:

“E&S Tankers are truly dedicated and it has been an absolute pleasure working with them. ESG issues are as important to them as it is for us, and so no stone has been left untouched. It has been very rewarding to experience how there is deep personal commitment to go beyond compliance and deliver lasting value. “
